

at a GLANCE

VISIONA world free of HUNGER and MALNUTRITION

MISSION

To provide research-based policy solutions that sustainably reduce poverty and end hunger and malnutrition.

What is FOOD POLICY?

"FOOD POLICY" refers to the collection of decisions made by governments, civil society, businesses, and international organizations that shape our food systems, including production, processing, distribution, and consumption of food.

What WE DO

IFPRI'S RESEARCHERS provide policymakers, donors, civil society, the private sector, and farmer organizations with rigorous, policy-relevant research.

IFPRI RESEARCHERS ANSWER QUESTIONS SUCH AS:

What policies help farmers manage scarce resources more sustainably? What investments can support lifelong nutrition and good health for rural and urban populations? How can agricultural growth and rural development be made more equitable and inclusive?

IN THIS COMPLEX AND FAST-CHANGING WORLD, IFPRI's strategy focuses on five key research areas essential to addressing poverty, hunger, and malnutrition in the face of new challenges. All IFPRI's research work takes gender into account.

Who WE ARE

OUR STAFF COME FROM 61 COUNTRIES AROUND THE WORLD.

Who WE ARE

*IFPRI's Regional and Country Offices are staffed by researchers from multiple units

IFPRI and CGIAR

IFPRI IS A RESEARCH CENTER OF CGIAR, the world's largest global agricultural innovation network, and pursues many of its core themes jointly through a new portfolio of large-scale CGIAR Research Initiatives.

These Initiatives leverage synergies across CGIAR, working through five major impact areas, to advance our joint mission of transforming food systems for a sustainable, climate-resilient world free from hunger and malnutrition.

Sharing our RESEARCH

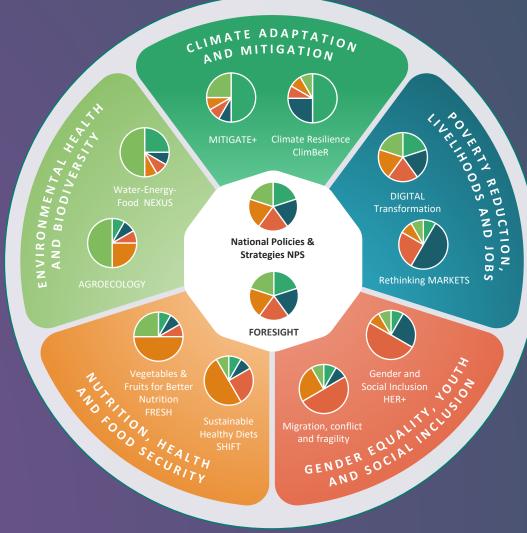

IFPRI WORKS WITH PARTNERS

including governments, multilateral organizations, civil society, the private sector, and universities and research institutions, as well as across CGIAR, to inform and enhance the impact of its research. Research results and products are shared through our web site, publications, social media, open access data sets, analytical models and tools, videos, web platforms, seminars, and training and capacity building.

CGIAR Research Initiatives

led and co-led by IFPRI support policy and institutional solutions for systems transformation
