Development Food Security Activity (DFSA)
KEBELE SURVEY: January 11, 2021

Instructions to enumerators: The community survey is a very important component of the overall household survey. For this questionnaire, the community is defined as the kebele or peasant association (PA). Interview at least three people who are knowledgeable about the community, making sure to include respondents who are informed about community infrastructure, health and extension services, the PNSP, and experience with conflict or unrest. The respondents should include (i) at least one member of the Kebele Food Security Task Force or the Kebele Council, (ii) at least one Development Agent or Health Extension Worker, and (iii) at least one of the respondents should be a woman. Be sensitive to the fact that in some localities women may be limited to speak in public and so you should make sure that women's perspectives are heard.
